

Accelerate the adoption
of collaborative practices

Our purpose

Glowbl accelerates the adoption of collaborative practices in organisations to improve team performance.

Glowbl can be used for training sessions or team facilitation. This unique technology empowers to use collaborative practices into the digital environment, in a scalable manner for the performance of the group and the productivity of facilitators and teams.

Glowbl is a European software editor

Integrated

In your Workplace

In your LMS

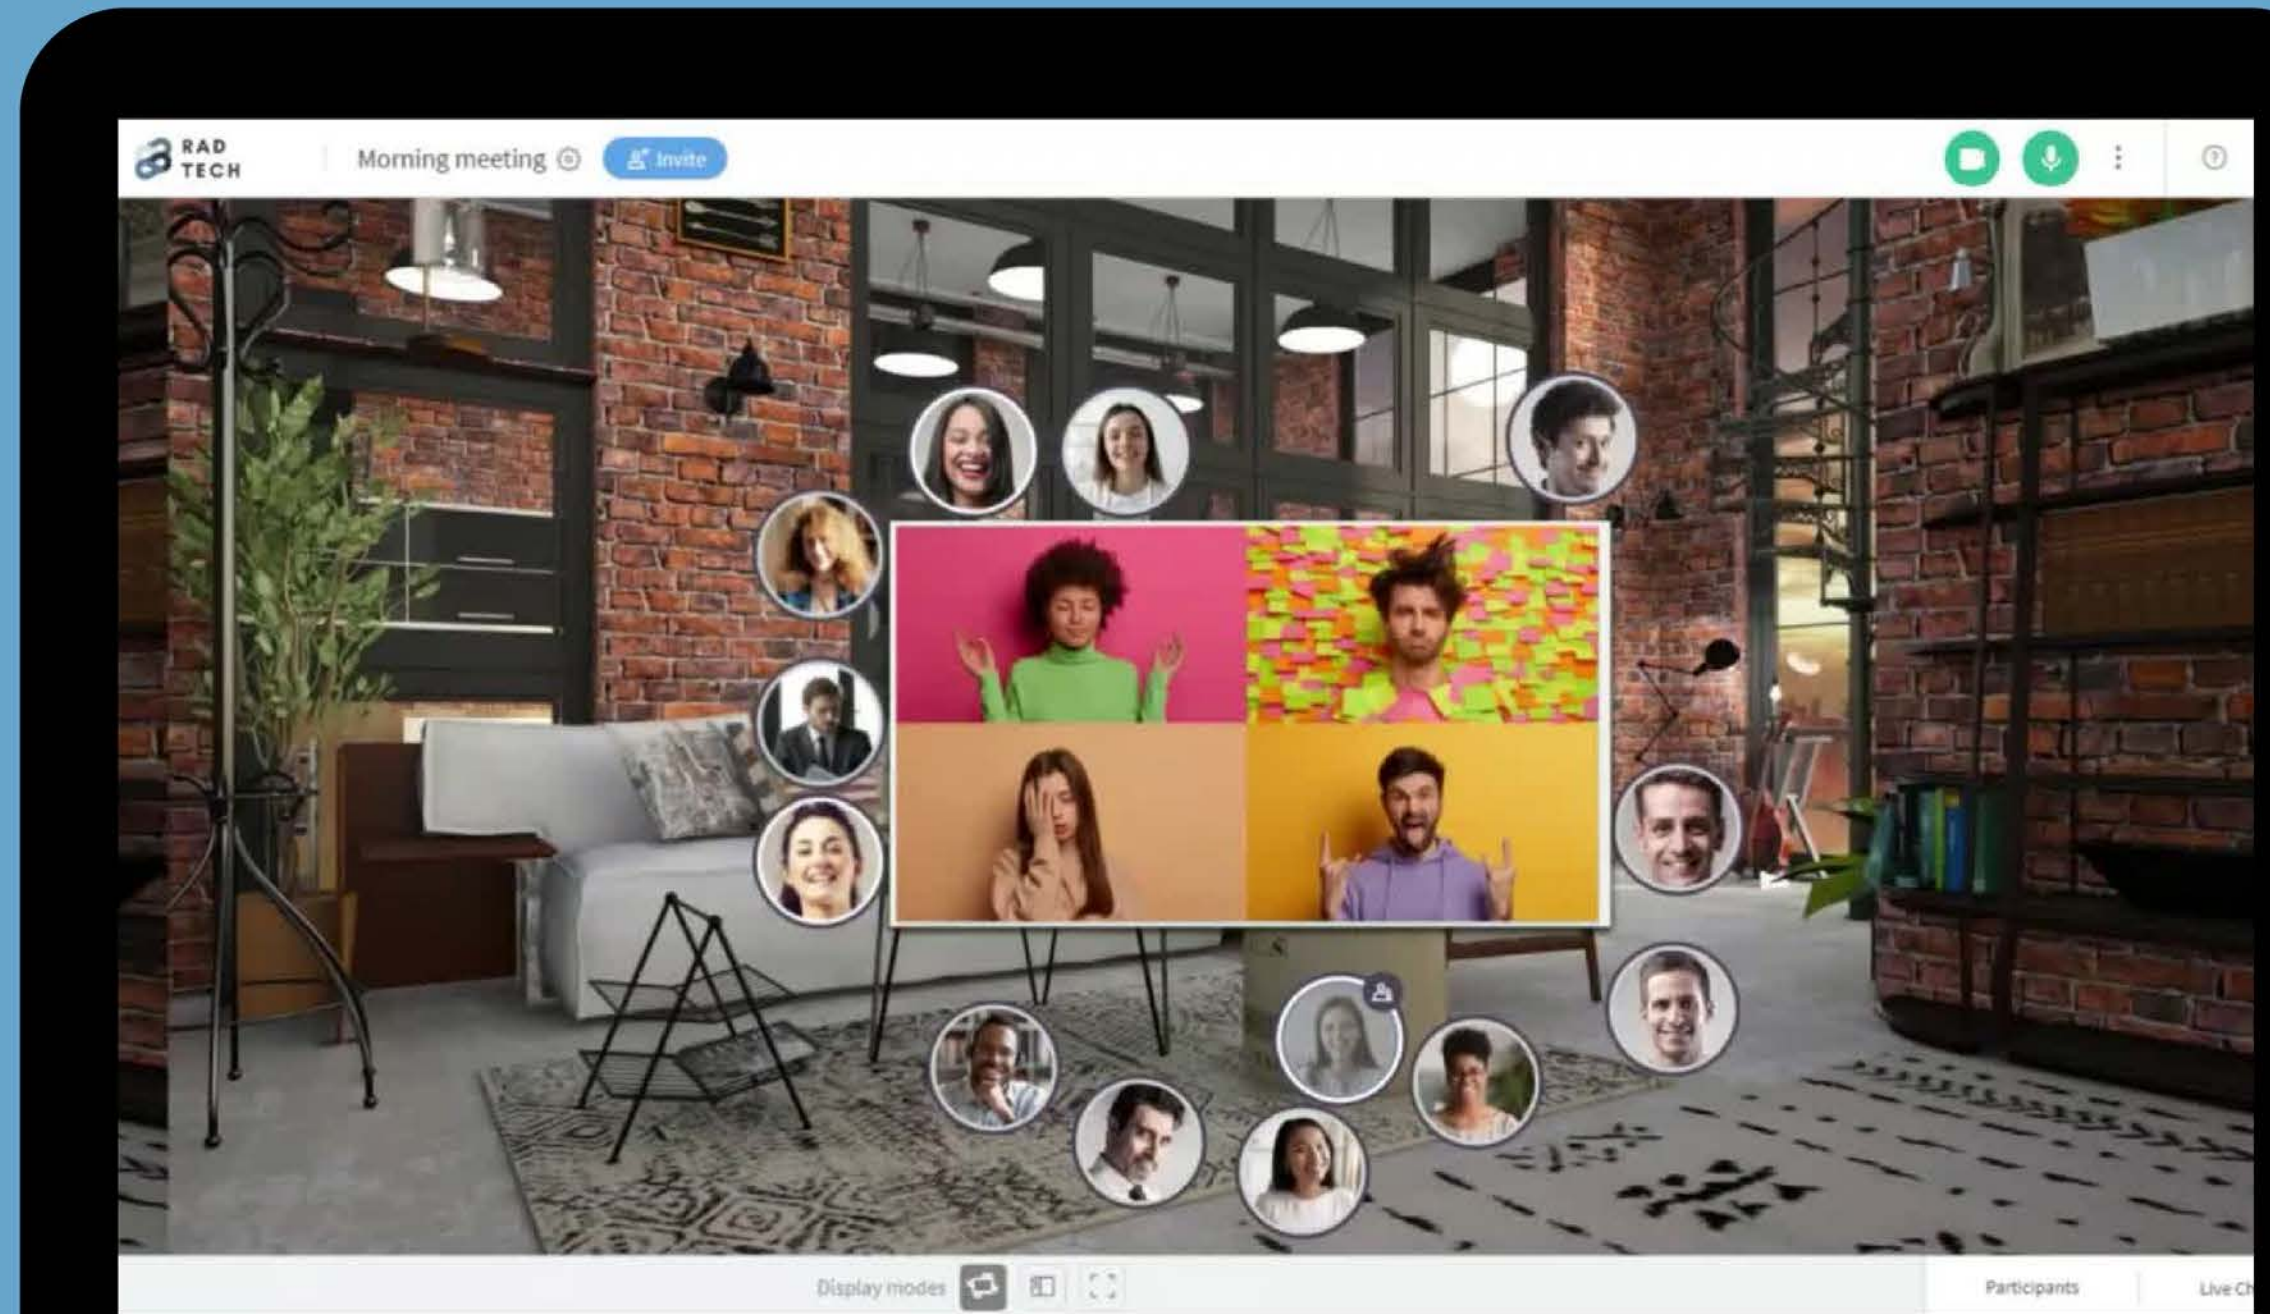

Benefits

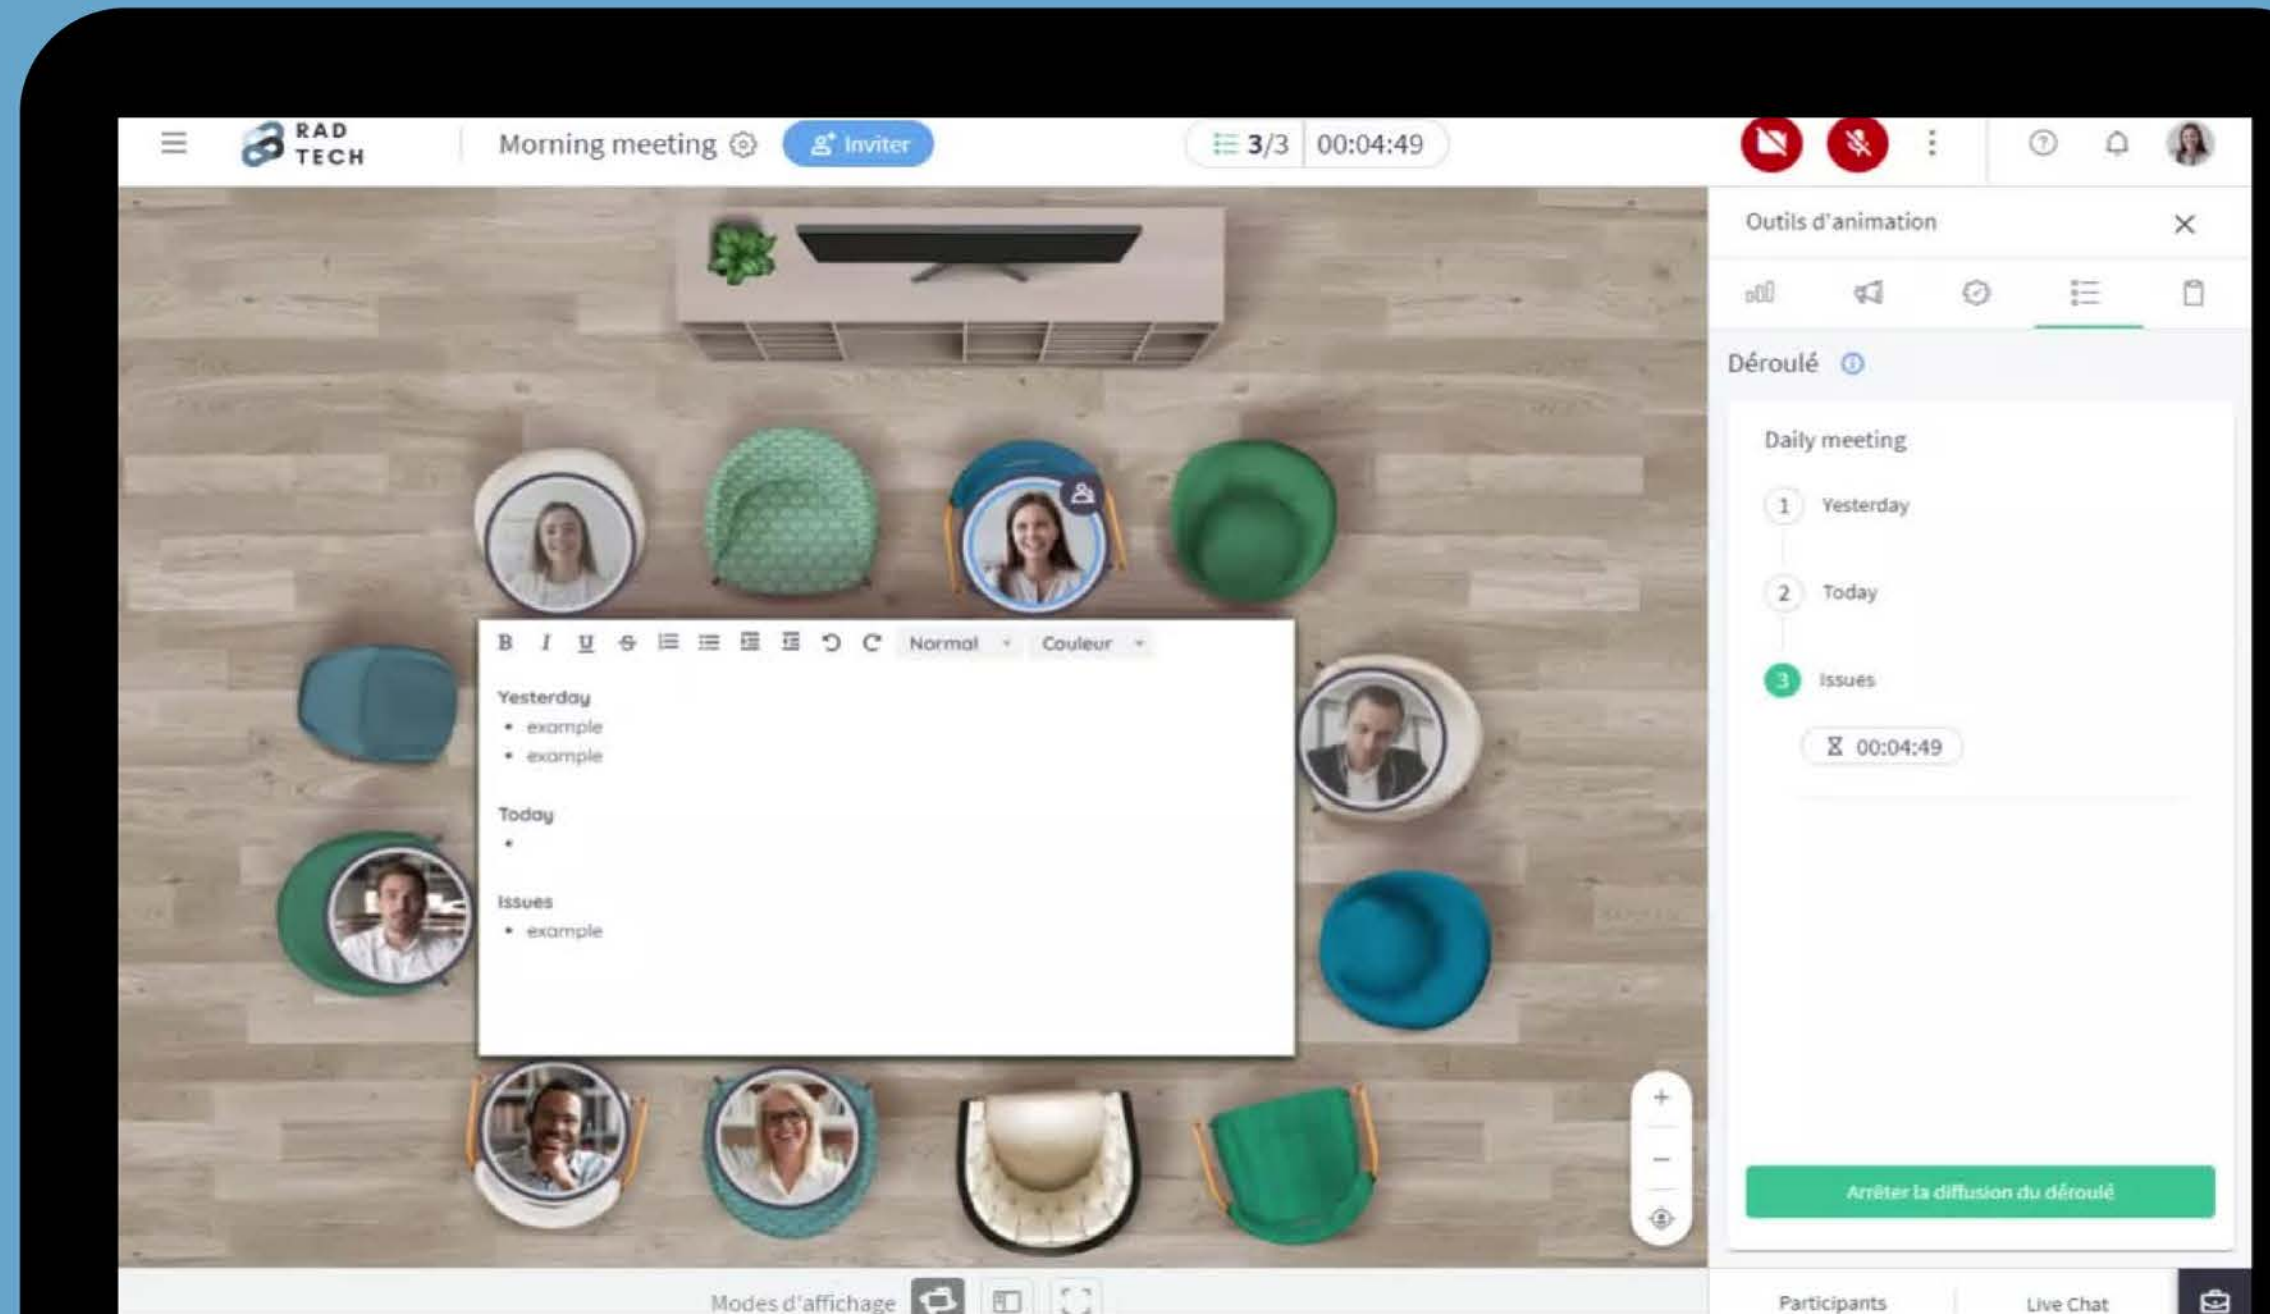

Team performance

- Persistent and customizable workspaces to create an online gathering place
- Team members "sit" around a table for :
 - friendliness
 - horizontality
 - focus on team production
- Freedom of movement for more commitment
- Real time collaboration : embed your preferred internal collaborative tools

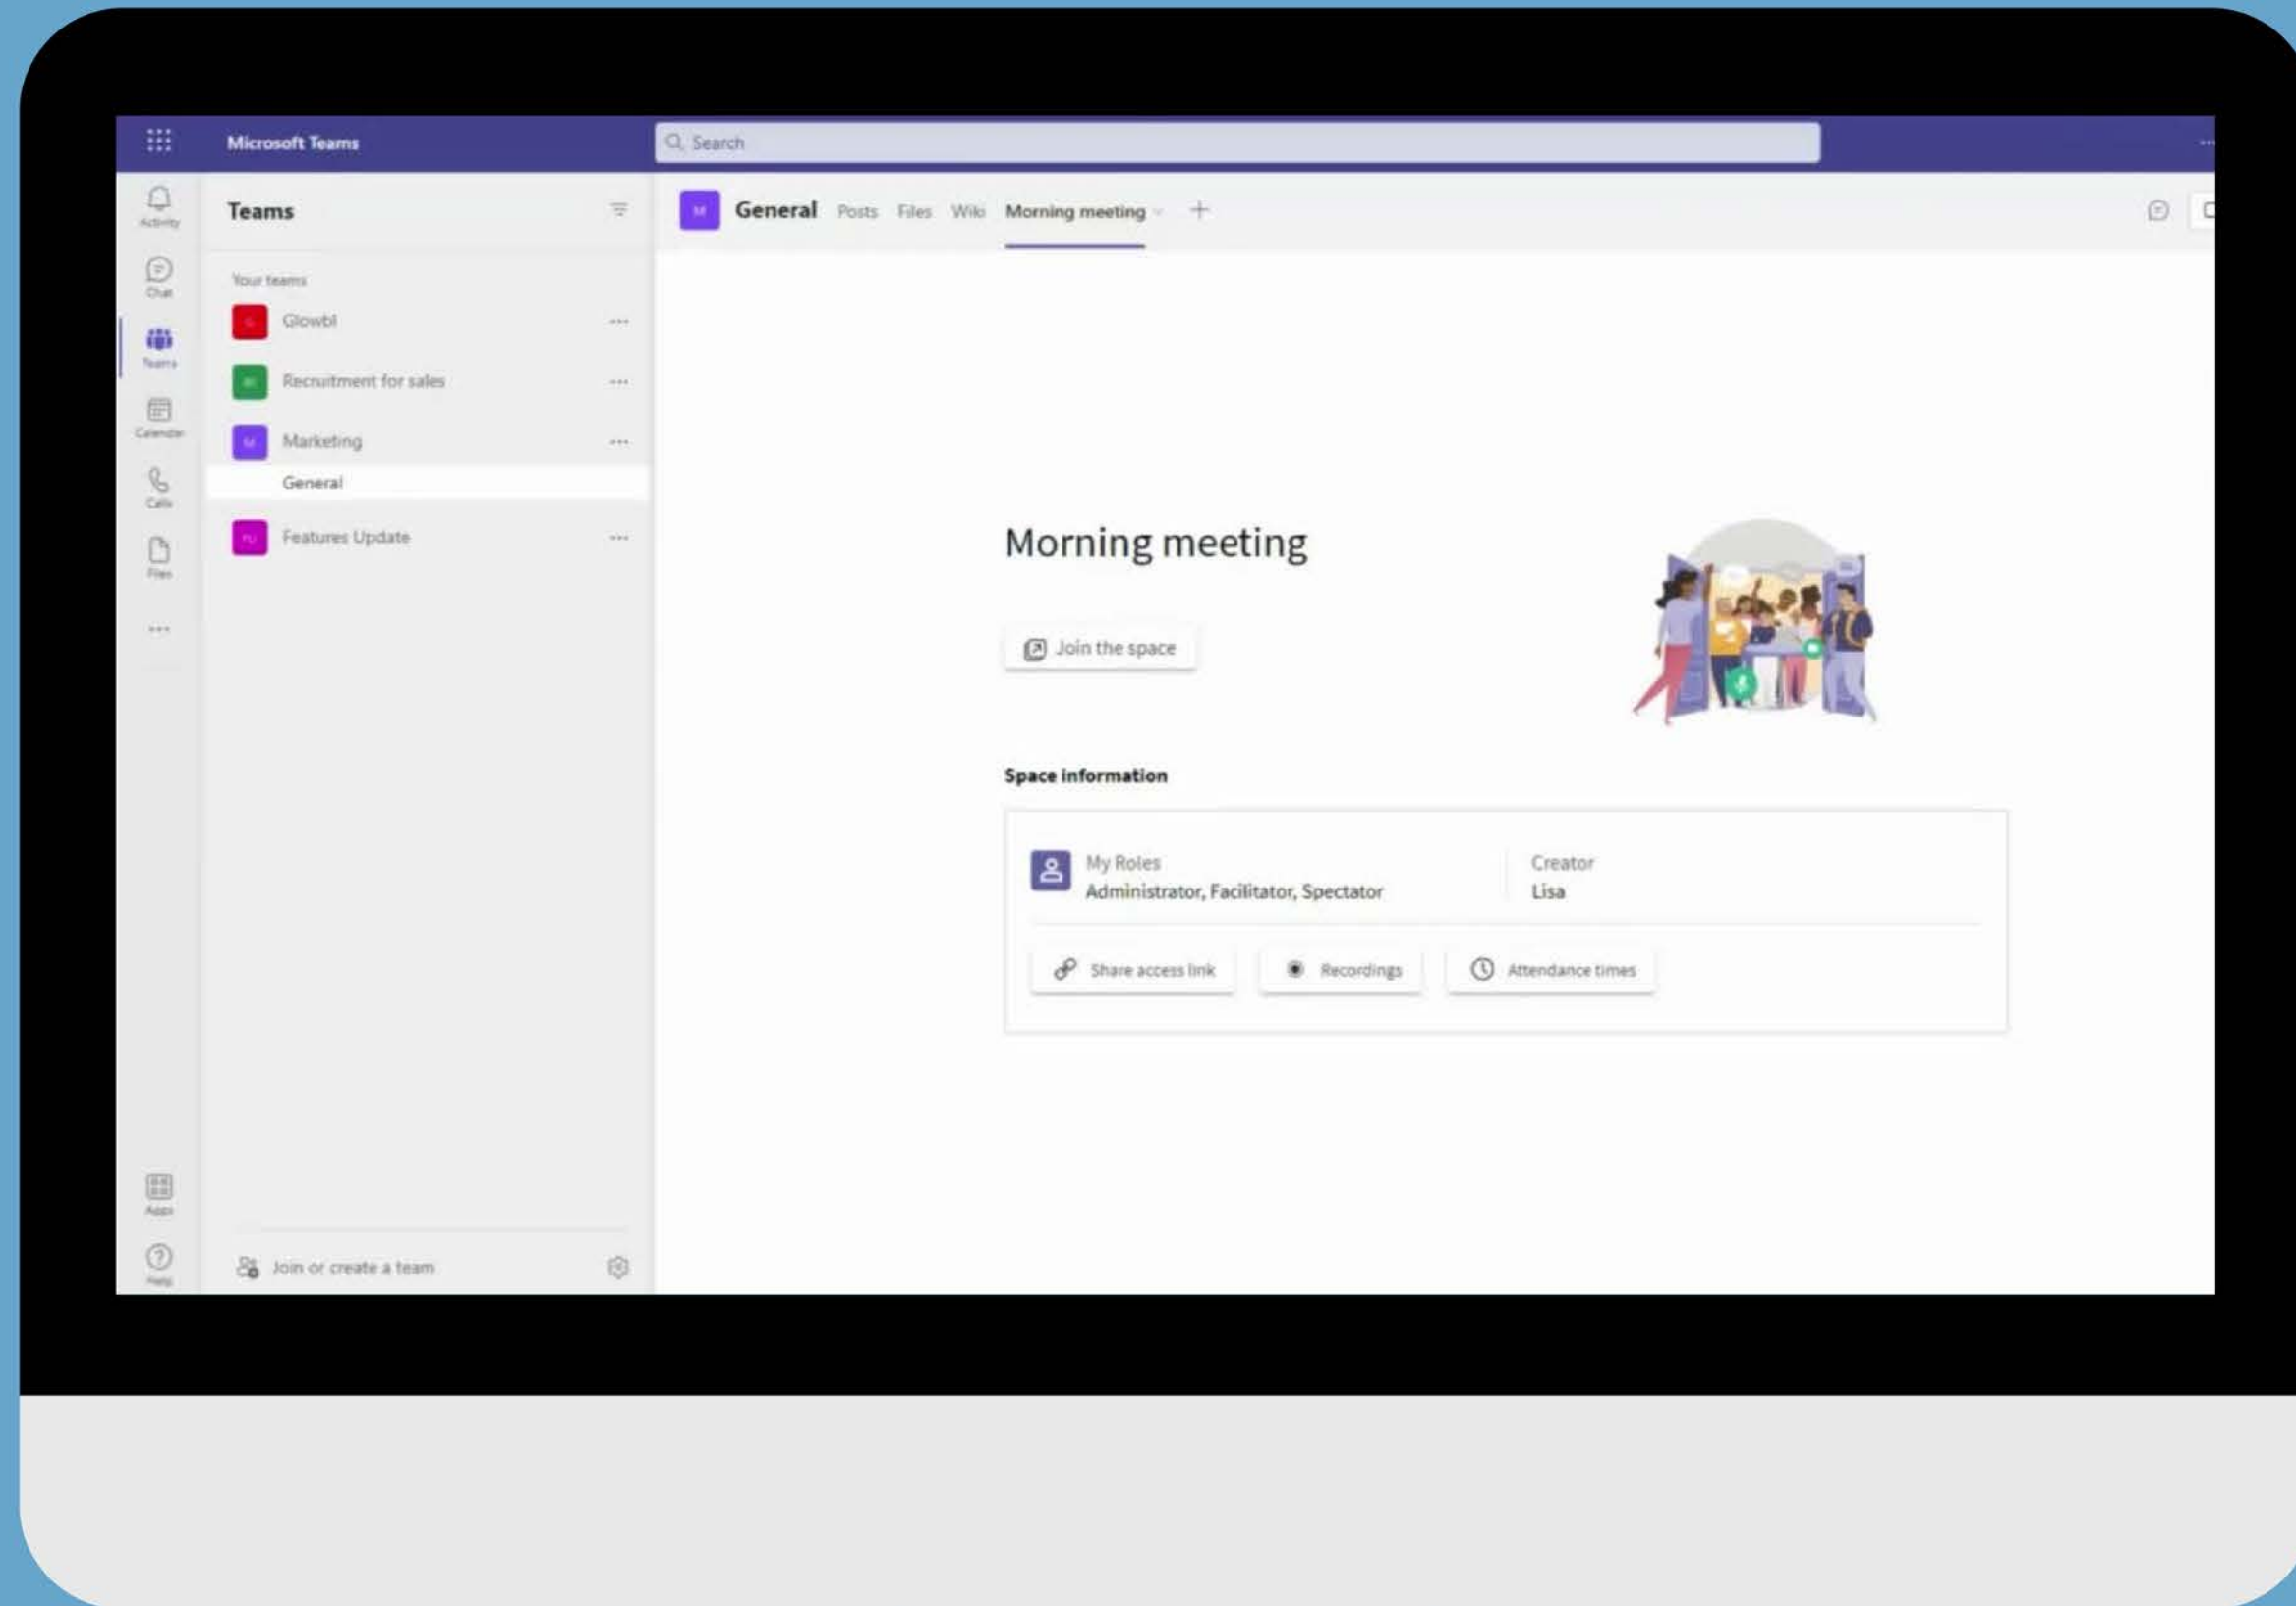

Productivity

- 9 tables in a single workspace to multiply workshops
- All resources and activities available in one click
- Sequenced sessions with a timer to reach the objectives on time

Scalability

- SSO and LMS + Teams integration for a unified experience
- Attendance time for regulatory compliance
- Workspaces can be saved as models to scale collaborative practices into your organisation

They use Glowbl

Natixis trains its employees in new softwares thanks to role-play exercises on Glowbl.

Legrand manages its distributors community by using Glowbl as a meeting location.

Emlyon delivers its executive programs on Glowbl in "a friendly environment to boost commitment thanks to very immersive and interactive features".

They use Glowbl

Capgemini onboards its new managers on Glowbl, "because it's the best solution to build employee relationships, even remotely".

Co'efficiency3 facilitates collaborative workshops on Glowbl on behalf of its customers to offer "an immersive environment that reproduces behaviors of a physical workplace".

Suez organises action learning workshops in Glowbl workspaces because they are reassuring for participants and structuring for facilitators, in accordance with the best experts methodology.
