FME: Bringing Life to Data

No-code integration platform with endless possibilities

To give your data purpose, you need to bring it all together to see the bigger picture. No matter where your data lives, FME eliminates friction and connects everyone to the data they need, all with no code. Here's how we do it:

Data in All its Forms

From real-time, spatial, business, application or database data, the FME Platform is where your integration solutions begin.

Application Integration

Gain new insights and efficiencies by connecting all your applications or web service via APIs to build integrated workflows.

Goes Anywhere Your Data Goes

FME is deployment agnostic. Whether it's on-premises, hybrid, or multi-cloud – there's a fit for you.

Migration & Integration

Transform data from 100s of sources into usable, integrated information.

Enterprise Automation

Save time and resources by connecting applications across your organization and automating manual tasks.

Pricing that Makes Sense

We focus on a model that grows and evolves with your needs. Get unlimited access to FME from day one.
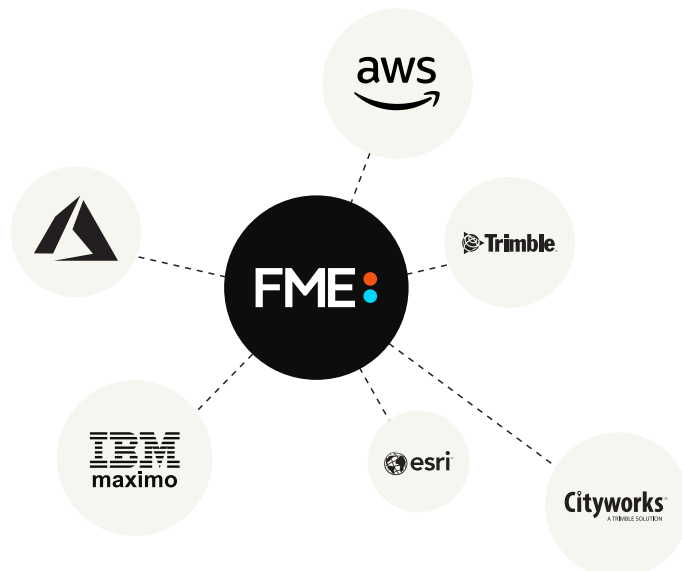

Trusted by 25,000+ companies globally since 1993

"If you feel like you're fighting with your data to get it to do what you want, FME was made to help you."

– John Cook, GIS Analyst, City of Austin

Countless solutions with unmatched support for spatial data

With 1,000+ data connections, wherever your data is, we'll help you harness it.

- 3D
