## Effective Supply Chain Solutions

With our warehouses strategically spread over the region we are able to provide you with the just-in-time service you merit. Using our experience in the safe handling of raw materials, additives and ingredients we make sure that our products arrive safely and on time at our customers. Combined with an efficient logistic system to source from Europe, Asia and other countries we are able to offer you a comprehensive product portfolio locally with an excellent service.

## Quality Assurance and Regulatory Affairs

At Vidara, quality has a high priority which is well embedded in our company culture. Our approach toward quality is comprehensive and systematic which enables continuous quality improvement.

## Application Laboratories

In-house application laboratories for tailor made customer formulations, product testing and quality assurance.

## Strong Technical Expertise

- Combining Commercial Expertise with Technical Mastery
- Deep Product Knowledge Across Chemical and Life Ingredients
- Reliable Partnerships with World-Class Suppliers
- Supporting Quality with Application Expertise

## Our Global Presence

## Our commitment to sustainability

At Vidara we understand sustainability as an intrinsic part of our activity and aim to responsibly manage the economic, social and environmental dimensions of sustainable development to generate value for society and for the business. Sustainability has always been a large part of what we do and who we are.
