

SINCE
1976

INTEROR

Supporting clients in their
development programs

CRO – CDMO
FINE CHEMICALS PARTNER

www.interor.com

In a few words

Welcome to Interor

CRO – CDMO

FINE CHEMICAL PARTNER

particularly in the field of advanced organic intermediates

Pharmaceutical
Industry

Speciality
Chemicals

Cosmetics

Partner today

Our business segments include :

- Custom Manufacturing
- Advanced Intermediates
- Ingredients
- Specialty Chemicals

Partner for the future

Our partnership include :

- Research & development
- Quality drug substances
- Operational excellence
- Sustainability for a better world

Solid foundations

1975

Creation of the company by Mr. & Mrs. Michel Ratti

1998-2000

MAJOR INVESTMENT PROGRAM

6 storage units, distillation unit, fire safety, treatment plant... Turn over > 20 M€

December 16, 2020

New shareholders for INTEROR GEOFFROY WAROQUEAUX & TURENNE GROUPE acquires Interor

They management continue to grow the company and modernize its facilities.

CONSTRUCTION OF THE 1ST industrial buildings, the R&D laboratory and the QC Lab

1976 - 1984

Construction of 2 drying rooms
QC Lab renovation & modernization / Securement of the Grignard Unit (5 reactors)

2017-2018

Since 2020, International development

Interor's growing presence in Europe, the United States and Asia (especially in India)

Extended R&D capabilities & Significant investment dedicated to new manufacturing capabilities

2023-2024

People

160 employees

Research
& Development

13 technicians,
doctors and
engineers

FINE CHEMICALS PARTNER

> 50% ... OUTSIDE France

Europe remains our main target, and we open up to other markets through a dynamic network of INTERNATIONAL AGENTS.

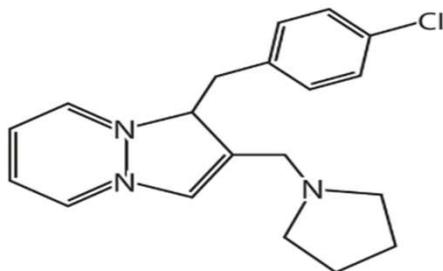

3 Solutions in Fine Chemicals

Research & development : Process

R&D

Development of NEW CHEMICAL FORMULATIONS or IMPROVEMENT of existing ones.

- Bibliography
- Check for existing patent
- Molecules / process catalogue

Progress development services

- Route-finding
- Process development
- Engineering
- Qualification / Validation
- Safety & Environmental studies
- REACH

QA & regulatory analytical support

- Analytical transfer & development
- Stability studies (analysis at Interor and controlled conditions storage outsourced)
- Testing
- Impurities structure
- Genotoxic study (when applicable)
- Raw materials and final product controls

Manufacturing

5>6 buildings
6th under construction

160m³
small molecules
manufacturing
capacity

40 reactors
1500 L
to 8000 L

Our strength lies in combining deep scientific know-how with industrial reliability, **delivering tailored solutions from early development to commercial scale.**

Manufacturer
specializing
in FINE CHEMICALS

FLEXIBILITY

- Custom manufacturing
- Cost-effective solutions
- Adaptive capacity

COMPLIANCE = local &
international standards

& RISK MANAGEMENT

POST-PRODUCTION

- Logistics services
- Inventory management
- Certifications and Claims
- Technical Support

Products

+1000
molecules
in **catalog**

Environment policy

Sustainable **WATER** management

Reduction of **ENERGY CONSUMPTIONS**

Better management system for **RECYCLABLE WASTE**

POLLUTION PREVENTION

Risk management, security and safety

SAFETY POLICY

PREVENT ACCIDENTS at work

EMERGENCY PLAN

FIRE PROTECTION system

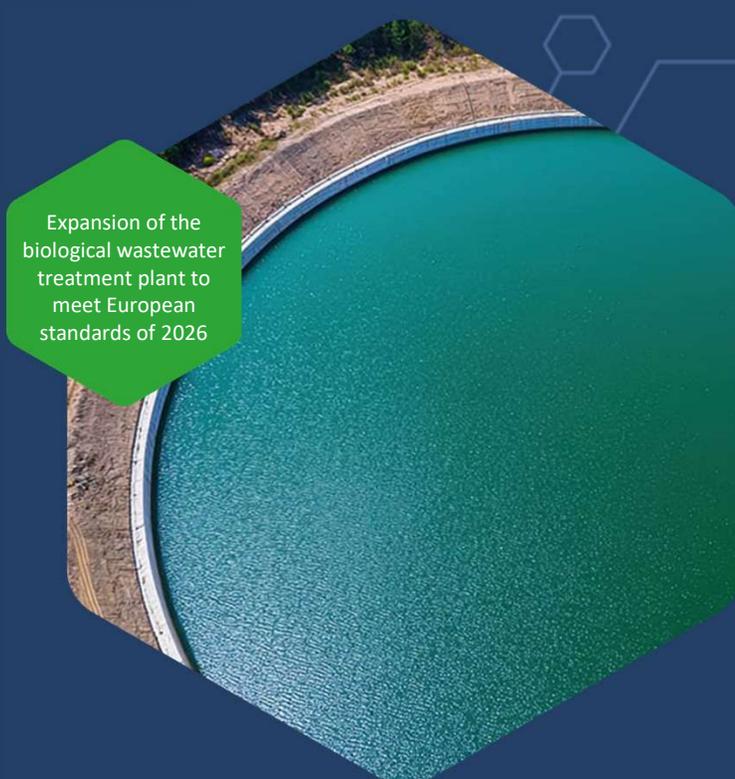

MANAGEMENT OF HAZARDOUS SUBSTANCES

Pollution prevention

WATER & HAZARDOUS LIQUID

In addition, INTEROR has its own BIOLOGICAL WASTEWATER TREATMENT PLANT compliant to current standards. That enables clean water to be released into the sea.

Also INTEROR integrates at its site A HOLDING POND SYSTEM that prevents any pollution of its surrounding by avoiding any leakage of hazardous liquid into the environment.

Expansion of the biological wastewater treatment plant to meet European standards of 2026

COMMITMENT TO THE "OPERATION CLEAN SWEEP"

In progress : Audit and implementation of correctives operations
