

"your future begins with Olivepackaging"

**Olive has over 200 types of standard (Free Mold) molds.**

All standard series bottles are heavy bottles with a luxurious thickness.

## EcoVadis Silver Rating 2023: Olive's Sustainable Excellence

In 2023, Olive proudly earned the prestigious Silver rating from EcoVadis, a renowned authority in corporate sustainability evaluations. Our commitment to excellence in environmental, social, and governance practices sets us apart, reflected in this esteemed recognition.

Discover Olive's dedication to sustainability, as we proactively address environmental challenges and fulfill our social responsibilities. Our transparent and efficient governance structure ensures a steadfast commitment to sustainable management practices.

Certify your association with Olive, a company actively addressing environmental issues and exhibiting responsible social practices. Partner with us as we continue our journey towards sustainable excellence, delivering products and services that embody our commitment to a better, more responsible future.

## Glass Polymer™

IB150S24

Enter the era of heavy blow bottles a groundbreaking solution from OlivePackaging that redefines plastic bottles. Differing significantly in weight and thickness, our heavy blow bottles outshine regular bottles, weighing three to five times less. What sets Olive's heavy blow bottle apart is its unique ability to mimic the appearance of a glass bottle, offering customizable thickness, especially at the bottom. Experience the versatility of our heavy blow bottles as they seamlessly replace glass bottles, minimizing the risk of cracking and featuring a lightweight design for quick responses to small quantities. Remarkably, these bottles weigh only 1/3 of their glass counterparts, making them a logistical dream and providing an easy canvas for expressing vibrant colors and post-processing treatments.

Elevate your packaging standards with OlivePackaging's heavy blow bottles the epitome of innovation, lightness, and adaptability for a future where sustainability meets style.

# PCR (Post-Consumer Recycled)

Olive Co., Ltd. specializes in the production of heavy injection blow (ISBM) and direct (EBM) bottles crafted from high-quality PCR plastic. The flexibility of PCR-PET content ranges from 10% to 100%, allowing us to precisely meet our customer's requirements. Our production techniques, honed through years of experimentation, ensure accurate realization of customer needs.

The PCR bottles manufactured by Olive. meet the rigorous standards set by the U.S. FDA, attesting to their suitability and safety. We use PCR raw materials with Global Recycled Standard (GRS) certification, guaranteeing the quality of recycled plastic.

From the supply and demand of raw materials to the entire manufacturing process, Olive produces and supplies PCR bottles, consistently maintaining GRS-certified standards.

Our PCR bottles, incorporating GRS-certified raw materials, reach representative countries such as the United Kingdom, the United States, and Japan. Many countries express a growing demand for heavy bottles with PCR plastic. With the expanding global obligations for PCR, Olive Co., Ltd. prioritizes PCR-applicable processes in planning, design, production, and quality control.

## PCR Expert Olive Packaging

### Exemplifying Extensive Expertise

Olive Packaging boasts a wealth of experience in the production of PCR bottles, caps, droppers, and pumps through EBM, ISBM, and injection processes. This demands comprehensive technical expertise, fully integrated into our operations.

PCR applied bottles

### Precision in Control

We offer precise control over PCR-PET, ranging from 30% to 100%, and PCR-PP, ranging from 30% to 50%. Additionally, we provide access to the latest development in chemically recycled PCR for our clients.

## 30%, 50%, 100%

### Certified PCR Excellence

At Olive Co., Ltd., we exclusively utilize FDA and GRS-certified PCR. Our PCR materials are sourced from reputable suppliers in Korea, ensuring the highest quality. Every batch of PCR material comes with a Transaction Certificate (T/C) issued by the Control Union, guaranteeing the authenticity and adherence to certification standards.

# Elevating Design Flexibility and Speed at Olive

Experience the realm of flexible and rapid design expansion with Olive. We boast an extensive collection of over 150 standard bottle molds featuring quality designs, ready for immediate use by customers developing their brands. To meet diverse customer needs promptly, we prioritize a high level of customer service. Our internal engineering design team operates seamlessly, ensuring quick and efficient support for development projects. Join Olive in unlocking the potential for swift and tailored design solutions, setting the pace for a dynamic and responsive partnership.

# Advancing Safe and Eco-Friendly Packaging Solutions at Olive

Olive is leading the charge in the development of secure and environmentally friendly packaging materials. Our proactive approach involves the active utilization of renewable raw materials and the establishment of a secure recycling ecosystem for PCR raw materials.

In pursuit of a sustainable future, Olive is building a global network to facilitate the widespread adoption of these eco-friendly materials. Additionally, we are at the forefront of developing and offering advanced technologies that further enhance the utilization of such materials. Join us in embracing a greener tomorrow with packaging solutions that prioritize safety, sustainability, and cutting-edge innovation.

## SCANDIA (PCR)PET, PETG

Olive continues to develop and supply Good Design's standard bottle!

# MONACO (PCR)PET, PETG

## Endless Possibilities with Cutting-edge Technologies

Explore a world of infinite decorations with Olive. Our range of cosmetic materials demands the latest in high-quality technologies, including silk printing, hot stamping, heat transfer, coating, deposition, and laser marking all handled internally. At Olive, we are dedicated to continuous technological innovation, ensuring precise identification of customer needs and visual realization in the most efficient way possible. Discover a universe of possibilities as we redefine cosmetic material solutions through state-of-the-art technologies. Join Olive in embracing a future where limitless decorations meet the highest standards of quality and efficiency.

# ATHENS (PCR)PET, PETG

We strategically plan and create cosmetic packages that precisely meet customer needs. From product ideation to finished products and logistics, we offer a total solution. Our commitment to continuous change and innovation ensures excellent products that exceed customer expectations.
