PRODUCT
CATALOGUE
2026

EUROVETROCAP è leader nel settore del packaging primario in vetro e plastica per i mercati cosmetico, makeup, profumeria e farmaceutico. Con un successo di oltre 40 anni, l'azienda si distingue per l'unione di eleganza, innovazione e flessibilità produttiva, offrendo soluzioni di packaging uniche e differenziate, adatte a qualsiasi formula di skincare,

hair care, body care, makeup, profumeria e aromaterapia. Caratterizzano l'offerta l'ampia gamma di prodotti standard, la qualità degli articoli, i prezzi competitivi, i tempi di consegna ridotti e la possibilità di acquistare anche quantità limitate di prodotti. Negli ultimi anni, l'azienda ha potenziato le attività di Ricerca e Sviluppo al fine di proporre gamme sempre più complete, trendy e tecnicamente innovative.

Nel 2024, Eurovetrocap ha istituito reparto dedicato allo sviluppo di progetti customizzati. Si compone da un team altamente qualificato di designer e tecnici di packaging, il cui unico obiettivo è quello di realizzare progetti su misura che soddisfino al meglio le esigenze dei clienti. Grazie a collaborazioni strategiche con fornitori selezionati, l'azienda è in grado di realizzare prototipi a costi contenuti e con tempistiche rapide, accelerando così l'intero processo di sviluppo in modo efficiente e affidabile. L'obiettivo di Eurovetrocap è quello di offrire le migliori soluzioni packaging per il successo e la soddisfazione dei propri clienti.

UNAZIENDA ORIENTATA AL FUTURO

Il mondo è in continua evoluzione. Il cambiamento climatico sta modificando l'ambiente e il modo in cui le persone interagiscono con esso. Gli eventi degli ultimi anni hanno spinto individui e organizzazioni a riflettere profondamente sulle proprie azioni, sulle relazioni con la società e sulla connessione con la natura. Anche Eurovetrocap ha colto questo momento come un'opportunità di trasformazione, avviando un percorso di rinnovamento e crescita. L'azienda ha ripensato le proprie modalità operative, rimodellato la struttura organizzativa, introdotto nuove risorse giovani e ridefinito obiettivi e ambizioni per il futuro.

EUROVETROCAP is a leader in the primary packaging industry for the cosmetics, makeup, perfumery, and pharmaceutical markets. With over 40 years of success, the company stands out for its combination of elegance, innovation, and production flexibility, offering unique and differentiated packaging solutions suitable for any skincare, hair care, body care, makeup, perfumery, and aromatherapy formula.

The offering is characterized by a wide range of standard products, high-quality items, competitive prices, short delivery times, and the possibility of purchasing even limited quantities of products. In recent years, the company has strengthened its Research and Development activities to provide increasingly comprehensive, trendy, and technically innovative product ranges.

In 2024, Eurovetrocap established a department dedicated to the development of customized projects. It consists of a highly qualified team of designers and packaging technicians, whose sole objective is to create tailor-made projects that best meet clients' needs. Thanks to strategic collaborations with selected suppliers, the company can produce prototypes at low costs and with quick turnaround times, efficiently and reliably accelerating the entire development process. Eurovetrocap's goal is to offer the best packaging solutions for the success and satisfaction of its clients.

A FORWARD-LOOKING COMPANY

The world is constantly evolving. Climate change is reshaping the environment and the way people interact with it. The events of recent years have prompted individuals and organizations to deeply reflect on their actions, their relationships with society, and their connection with nature.

Eurovetrocap has embraced this moment as an opportunity for transformation, embarking on a journey of renewal and growth. The company has rethought its operational methods, restructured its organization, introduced new young talents, and redefined its goals and ambitions for the future. This commitment

Questo impegno si è concretizzato in una visione aziendale chiara e orientata a "una crescita solida, fondata sui valori di sostenibilità ambientale, benessere dei dipendenti e soddisfazione dei clienti". Come nell'anno precedente, prosegue l'impegno di Eurovetrocap nella realizzazione del bilancio di sostenibilità, che vedrà coinvolti tutti gli stakeholders interni ed esterni del Gruppo e i cui risultati verranno pubblicati nel corso del 2026. Questo percorso ha consentito di formalizzare il Piano Strategico di Sostenibilità, che si iscrive in una logica di continuità di numerose attività intraprese negli ultimi dieci anni. Il piano ricopre tre temi principali (persone al primo posto, prodotti e servizi innovativi e a minore impatto, agire per il clima) e si articola in oltre 70 obiettivi concreti per i prossimi anni. L'azienda crede fermamente nel futuro e continuerà a lavorare affinché le proprie azioni rispondano sempre agli interessi delle generazioni future, con particolare attenzione ai bambini, che saranno i clienti di domani.

IL LAB ZERO IN-PACK

Zero In-Pack è il laboratorio di Eurovetrocap, nato nel 2020 con l'obiettivo di sviluppare soluzioni di packaging a ridotto impatto ambientale. Interamente dedicato all'innovazione, il laboratorio utilizza strumenti avanzati di analisi, tra cui l'LCA (Life Cycle Assessment), per valutare e confrontare l'impatto ambientale dei diversi set di packaging. Grazie a questa metodologia, Zero In-Pack consente di individuare strategie efficaci per ridurre l'impatto ambientale, intervenendo su vari aspetti, come l'impiego di materiali riciclati, la riduzione del peso dei prodotti o l'adozione di tecniche di personalizzazione più sostenibili.

Oltre alla ricerca e sviluppo, il laboratorio si pone l'obiettivo di diffondere i principi dell'ecodesign, sia all'interno del gruppo Eurovetrocap sia all'esterno. Attraverso attività di consulenza e supporto, Zero In-Pack collabora con aziende e professionisti del settore che condividono la visione di una produzione più sostenibile e responsabile.

I MATERIALI RICICLATI

Primo vaso cosmetico ad alta percentuale di vetro riciclato (90%), il nostro vaso Licata ha aperto la strada ad una serie di articoli standard tutti oramai declinati in versione riciclata: flaconi vetro Laura e vasi vetro Laurence, flaconi HDPE Cilindro alto, flaconi Sirio alto PET, accessori PP. I nostri sforzi sono sempre più rivolti a monitorare la disponibilità di materiali riciclati ed a ricercare nuovi compound di base riciclata, adatti ai nostri processi produttivi.

Tale impegno ci consente di proporre un numero sempre maggiore di articoli in versione a ridotto impatto ambientale, in modo da inquadrare i Vostri progetti in una logica di circolarità.

has materialized into a clear corporate vision aimed at "solid growth based on the values of environmental sustainability, employee well-being, and customer satisfaction."

As in the previous year, Eurovetrocap continues its commitment to sustainability reporting, involving all internal and external stakeholders of the Group.

The results will be published in 2026. This journey has led to the formalization of the Strategic Sustainability Plan, which builds on numerous initiatives undertaken over the past decade. The plan focuses on three main themes (people first, innovative and low-impact products and services, acting for the climate) and outlines more than 70 concrete objectives for the coming years. The company firmly believes in the future and will continue working to ensure that its actions always align with the interests of future generations, with special attention to children, who will be the customers of tomorrow.

THE ZERO IN-PACK LAB

Zero In-Pack is Eurovetrocap's dedicated laboratory, founded in 2020 with the goal of developing low-impact packaging solutions. Entirely focused on innovation, the lab uses advanced analytical tools, including Life Cycle Assessment (LCA), to evaluate and compare the environmental impact of different packaging sets. Through this methodology, Zero In-Pack identifies effective strategies to reduce environmental impact by addressing various aspects, such as the use of recycled materials, weight reduction, or the adoption of more sustainable customization techniques. In addition to research and development, the lab aims to spread ecodesign principles both within Eurovetrocap and externally. Through consulting and support activities, Zero In-Pack collaborates with companies and industry professionals who share the vision of more sustainable and responsible production.

RECYCLED MATERIALS

The Licata jar, the first cosmetic jar with a high percentage of recycled glass (90%), paved the way for a series of standard products now all available in recycled versions. These include Laura glass bottles, Laurence glass jars, Cilindro Alto HDPE bottles, Sirio Alto PET bottles, and various PP accessories.

The company is continuously committed to monitoring the availability of recycled materials and researching new recycled-based compounds compatible with its production processes.

This approach allows for an expanded range of low-impact solutions, enabling clients to develop projects within a circular economy and sustainability perspective.

CUSTOM

make your packaging unique

“E se volessi un packaging dal design esclusivo, personalizzato e progettato secondo le mie esigenze?”

“And what if I wanted an exclusively designed packaging, customized, and tailored to my needs?”

In **Eurovetrocap** disponiamo di risorse, strumenti e competenze, per affrontare con successo progetti di ogni tipo.

Il Project Manager che segue il progetto **custom** dalla definizione del brief fino al lancio, monitora ogni fase per sviluppare il progetto meticolosamente in sinergia con tutti i team coinvolti.

In base ai tempi e all'investimento economico desiderato possiamo offrire due modalità di progetto custom:

- **FULL-CUSTOM**, che prevede la creazione in esclusiva dell'intero packaging per creare una soluzione **unica e personalizzata**.
- **TAILORED**, che prevede la personalizzazione di alcune parti del packaging, e per le altre attinge al vasto catalogo di prodotti standard Eurovetrocap.

Un sicuro **vantaggio strategico** per bilanciare tempi e costi e ridurre il time-to-market.

Grazie alla nostra **esperienza** nella progettazione e produzione di packaging per il settore beauty, conosciamo nel dettaglio punti di forza e limiti di ciascun materiale e processo.

Fin dalle prime fasi del brief modelliamo il prodotto insieme al vostro team seguendovi in tutti i passaggi, dall'idea alla **creatività**, dallo stile alla **progettazione**, fino alla produzione.

At **Eurovetrocap** we have resources, tools, and expertise to successfully handle every kind of projects.

The Project Manager overseeing the **custom** project-from the brief definition to the launch-monitors every step to meticulously develop the project in synergy with all the teams involved.

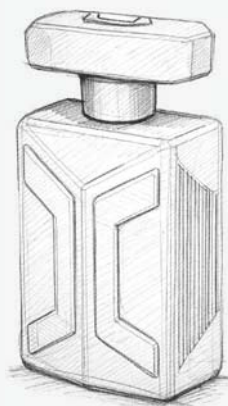

Depending on the timeline and the desired investment, we offer two options to customize your project:

- **FULL-CUSTOM**, which involves the exclusive creation of the entire packaging to develop a **unique and customized** solution.
- **TAILORED**, which allows customization of certain packaging elements while utilizing Eurovetrocap's extensive catalog of standard products for the remaining parts. This **strategic advantage** helps balance time and costs while reducing time-to-market.

Thanks to our **experience** in designing and manufacturing packaging for the beauty industry, we know the advantages and limitations of each material and process.

From the early steps of the brief, we create the product together with your team, following you in all the steps, from idea to **creativity**, from style to **design**, up to production.

Siamo lieti di presentarti le nostre nuove famiglie di prodotti: flaconi in vetro o plastica e vasi in vetro, sempre disponibili nelle colorazioni ambra, nero, bianco e satinato. Abbiamo selezionato i nostri bestseller per garantire una disponibilità costante, anche in piccole quantità. I contenitori cilindrici, facili da personalizzare con serigrafie, stampe o etichette, si adattano a diversi prodotti e accessori. Proponiamo vasi in vetro da 50 ml, flaconi in vetro con bocca a vite da 15 o 30 ml e flaconi in PET da 100 e 200 ml.

Le colorazioni valorizzano il packaging:

- **Ambra:** naturale ed elegante, ideale per prodotti autentici e di qualità.
- **Nero:** moderno e sofisticato, perfetto per cosmetici e articoli di lusso.
- **Bianco:** pulito e minimale, ideale per settori dove eleganza e funzionalità si uniscono.
- **Satinato:** raffinato e discreto, adatto a molte categorie di prodotto. Disponiamo di accessori compatibili, come pompe, capsule, coperchi e contagocce, per completare il packaging in modo pratico ed elegante.

We are pleased to introduce our new product families: glass or plastic bottles and glass jars, always available in amber, black, white, and frosted finishes. We have selected our bestsellers to ensure constant availability, even in small quantities.

Our cylindrical containers are easy to customize with screen printing, hot stamping, or labels and adapt to various products and accessories. We propose 50 ml glass jars, 15 or 30 ml glass screw-neck bottles, and 100 and 200 ml PET bottles.

Each color enhances the packaging:

- **Amber:** natural and elegant, ideal for authentic, high-quality products.
 - **Black:** modern and sophisticated, perfect for cosmetics and luxury items.
 - **White:** clean and minimal, ideal for sectors where elegance meets functionality.
 - **Frosted:** refined and discreet, suitable for various product categories.
- We also provide compatible accessories such as pumps, caps, lids, and droppers to complete the packaging in a practical and stylish way.

- 1 FILTRA IN BASE ALLE TUE ESIGENZE
FILTER BASED ON YOUR NEEDS
- 2 SCEGLI IL PRODOTTO CHE PREFERISCI
CHOOSE THE PRODUCT YOU PREFER

Il nostro configuratore prodotti è stato pensato per offrirti un'esperienza semplice, intuitiva e completamente personalizzabile. In pochi passaggi puoi scegliere il contenitore più adatto alle tue esigenze e abbinarlo all'accessorio perfetto, creando una combinazione su misura.

Our product configurator has been designed to offer you a simple, intuitive, and fully customizable experience. In just a few steps, you can choose the container that best suits your needs and pair it with the perfect accessory, creating a tailor-made combination.

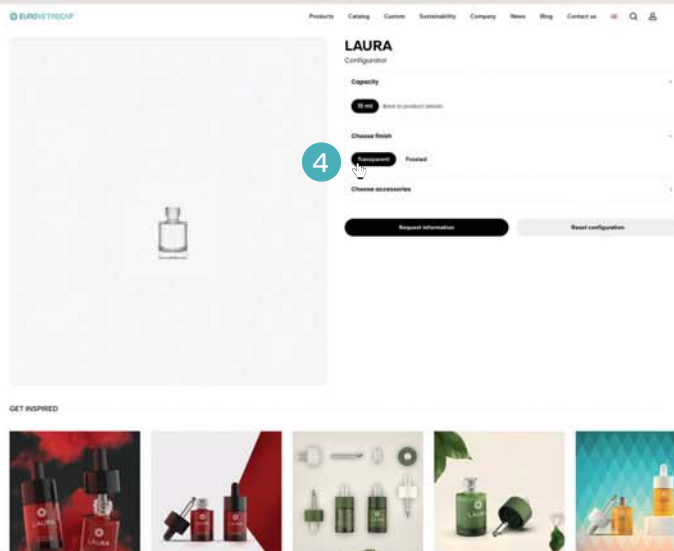

- 3 CONFIGURA IL PRODOTTO SCELTO
CONFIGURE THE SELECTED PRODUCT

Puoi esplorare liberamente le diverse finiture disponibili, confrontando forme, materiali e dimensioni dei contenitori. Ogni scelta è pensata per aiutarti a trovare la soluzione migliore, combinando estetica, funzionalità e praticità, secondo le tue preferenze personali e professionali.

You can freely explore the different available finishes, comparing shapes, materials, and container sizes. Every choice is designed to help you find the best solution, combining aesthetics, functionality, and practicality according to your personal and professional preferences.

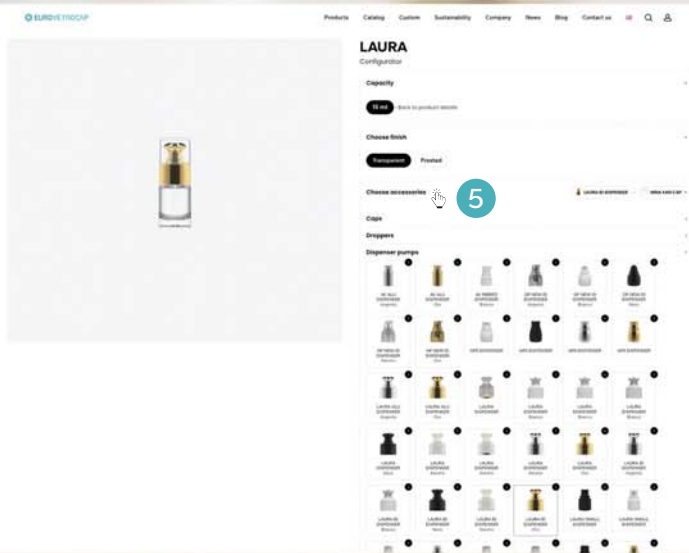

4 SCEGLI TRA LE FINITURE DISPONIBILI
CHOOSE FROM THE AVAILABLE FINISHES

Ogni elemento è progettato per integrarsi al meglio con gli altri, garantendo coerenza estetica e funzionalità. Il configuratore ti guida passo dopo passo nella selezione, permettendoti di visualizzare le diverse opzioni e confrontarle facilmente.

Each element is designed to integrate seamlessly with the others, ensuring aesthetic consistency and functionality. The configurator guides you step by step through the selection process, allowing you to easily view and compare the different options.

5 SCEGLI TRA GLI ACCESSORI COMPATIBILI
CHOOSE FROM COMPATIBLE ACCESSORIES

Sperimenta, combina, personalizza: con il nostro configuratore hai la libertà di creare la soluzione che rispecchia davvero il tuo stile e le tue necessità.

Experiment, combine, and personalize: with our configurator, you have the freedom to create a solution that truly reflects your style and your needs.

euromakeup

Euromakeup is a company founded in 2016 and is part of Eurovetrocap group, created with the aim of producing and selling primary packaging dedicated to the world of makeup.

Born with the will to replicate the business model of Eurovetrocap, which is based on a wide range, flexible MOQ, reduced time to market, efficient customer care, and competitive prices.

Euromakeup aims to support companies in the makeup sector, starting with Italian firms, whose excellence is recognized around the world starting from the contract fillers to continue with the big and small brands established at European level and worldwide. Our goal is to become a reliable partner with whom to develop successful projects.

Euromakeup è un'azienda fondata nel 2016 e fa parte del gruppo Eurovetrocap, creata con l'obiettivo di produrre e vendere packaging primario dedicato al mondo del makeup.

Nasce con la volontà di replicare il modello di business di Eurovetrocap, che si basa su un'ampia gamma di prodotti, MOQ flessibili, time to market ridotto, customer care efficiente e prezzi competitivi.

Euromakeup si propone di supportare le aziende del settore makeup, a partire da quelle italiane, le cui eccellenze sono riconosciute in tutto il mondo partendo dai produttori per proseguire poi con i grandi e piccoli brand affermati a livello europeo e mondiale. Il nostro obiettivo è diventare un partner affidabile con cui sviluppare progetti di successo.
