

Simple and sustainable

— EPOPACK storytelling packaging —

Simple & Sustainable - We Create Infinite Possibilities For You

EPOPACK is a Taiwan-based manufacturer of sustainable packaging solutions, with a Canadian office. With over 30 years of experience in R&D and manufacturing, we specialize in high-quality, **PET heavy-wall bottles, jars, and airless bottles** that are available in **100% PCR PET**.

We understand that in the beauty industry, packaging is more than just a container; it's a storyteller. Our solutions **offer flexibility, customization, and sustainability** to help you create a unique visual identity, convey your brand message, and make a positive environmental impact.

Our focus on PET material and heavy-wall design ensures both durability and sustainability. Our offerings are chic, adaptable, and easily customizable to meet your specific needs. Since 2009, we've been committed to developing **100% PCR PET heavy-wall bottles**, continuously pushing the boundaries of sustainable packaging.

Corporate social responsibility is at the core of our business. We strive to use **energy-efficient materials**, minimize our environmental footprint, and continuously improve our technology and aesthetics.

Choose EPOPACK for premium packaging, unparalleled customer support, and a commitment to a sustainable future.

*Elegance redefined in
premium design.*

The EPOPACK Story

It was 2004, and I was volunteering at a local recycling center, a normal day until I noticed one of our own acrylic bottles on the sorting line. I knew we made them, and I assumed they could be recycled. I was wrong. When I asked why, I learned that acrylic, marked with resin code #7, was nearly impossible to recycle. That bottle, and every one like it, was destined for the landfill.

That moment changed everything. Those bottles represented 80% of EPOPACK's business, yet they couldn't be recycled. It was a wake-up call I couldn't ignore.

Our mission became clear: create sustainable, luxury packaging without compromise.

Just one year and countless trials later, we did it. We created our PET Heavy Wall Bottles, which combines a premium glass-like look with full recyclability and durability of plastic. By 2009, we launched our first 100% Post-Consumer Recycled (PCR) packaging line.

Today, PET has become a preferred material for cosmetic packaging worldwide. BPA- and phthalate-free, shatterproof, lightweight, and easily recyclable (Resin Code #1). With its glass-like clarity and shatter-resistant strength, PET offers a smarter, safer, and more sustainable path forward for beauty packaging.

Why Choose Heavy-Wall PET Packaging?

Premium Look. Modern Performance.

Glass-Like Clarity – Exceptional transparency for a clean, high-end look.

Shatterproof Durability – Safe, impact-resistant, and travel-friendly.

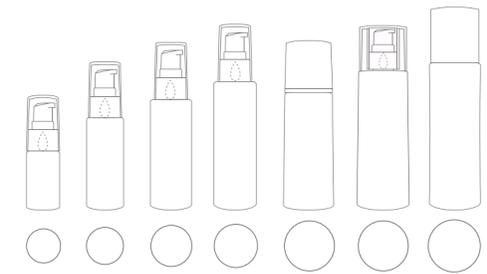

Lightweight Efficiency – Easier to handle and more sustainable to ship.

Sleek, Solid Feel – Thick-walled design without excess material.

Sustainable Options – Available in 100% PCR PET, supporting eco-conscious brand goals.

Heavy-wall PET packaging delivers the elevated look of glass, with the strength and versatility of plastic. It's ideal for premium skincare, haircare, and personal care collections.
