Private Corner provides *institutional access* to private assets for its distributors' *private clients*

Private Corner is an integrated solution for wealth managers, private banks and family offices by giving access their Private clients to the potential return and diversification of private assets.

Dedicated approach for *management* professionals

Private Corner is a “digital native” management company, authorised by the Autorité des marchés financiers (AMF), which provides wealth and funds managers, and their clients, with an access to an integrated investment platform dedicated to private assets.

Simple, diversified access to private markets

Fully digital premium service

Bespoke investment monitoring

Tailored approach

Without changing funds managers and distributors operating model, Private Corner brings them technological and regulatory expertise.

01 Turnkey

Private Corner identifies funds in fundraising process, in order to offer a diversified selection of funds with a proven investment strategy and ability to generate returns.

02 Custom

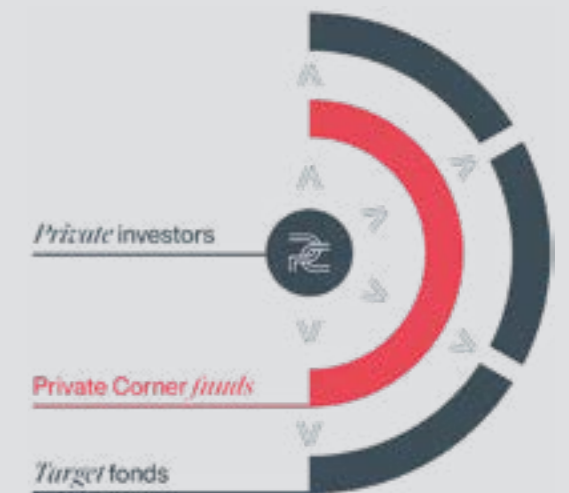

In order to allow an exposure to a specific strategy, Private Corner provides its platform expertise and experience to structure and manage a tailor-made, ready-to-use, fully digital investment vehicle.

Past performance is not a reliable indicator of future performance.

Diversified and complementary selection of funds

Private Corner provides access to the world's leading private assets funds offering a proven track record over several economic cycles.

Enjoy access to a diversified, complementary range of funds (strategies, geographies and sectors) to build an allocation for private clients.

100% digital experience
and fully integrated processes

Fair business model

For

Strong *identity*

Collaborative

B2B platform
designed for
wealth managers

Expert

Premium selection,
operational expertise
and technological innovation

Committed

Personalised,
high value-added,
and fully digitalised support

Trailblazing team

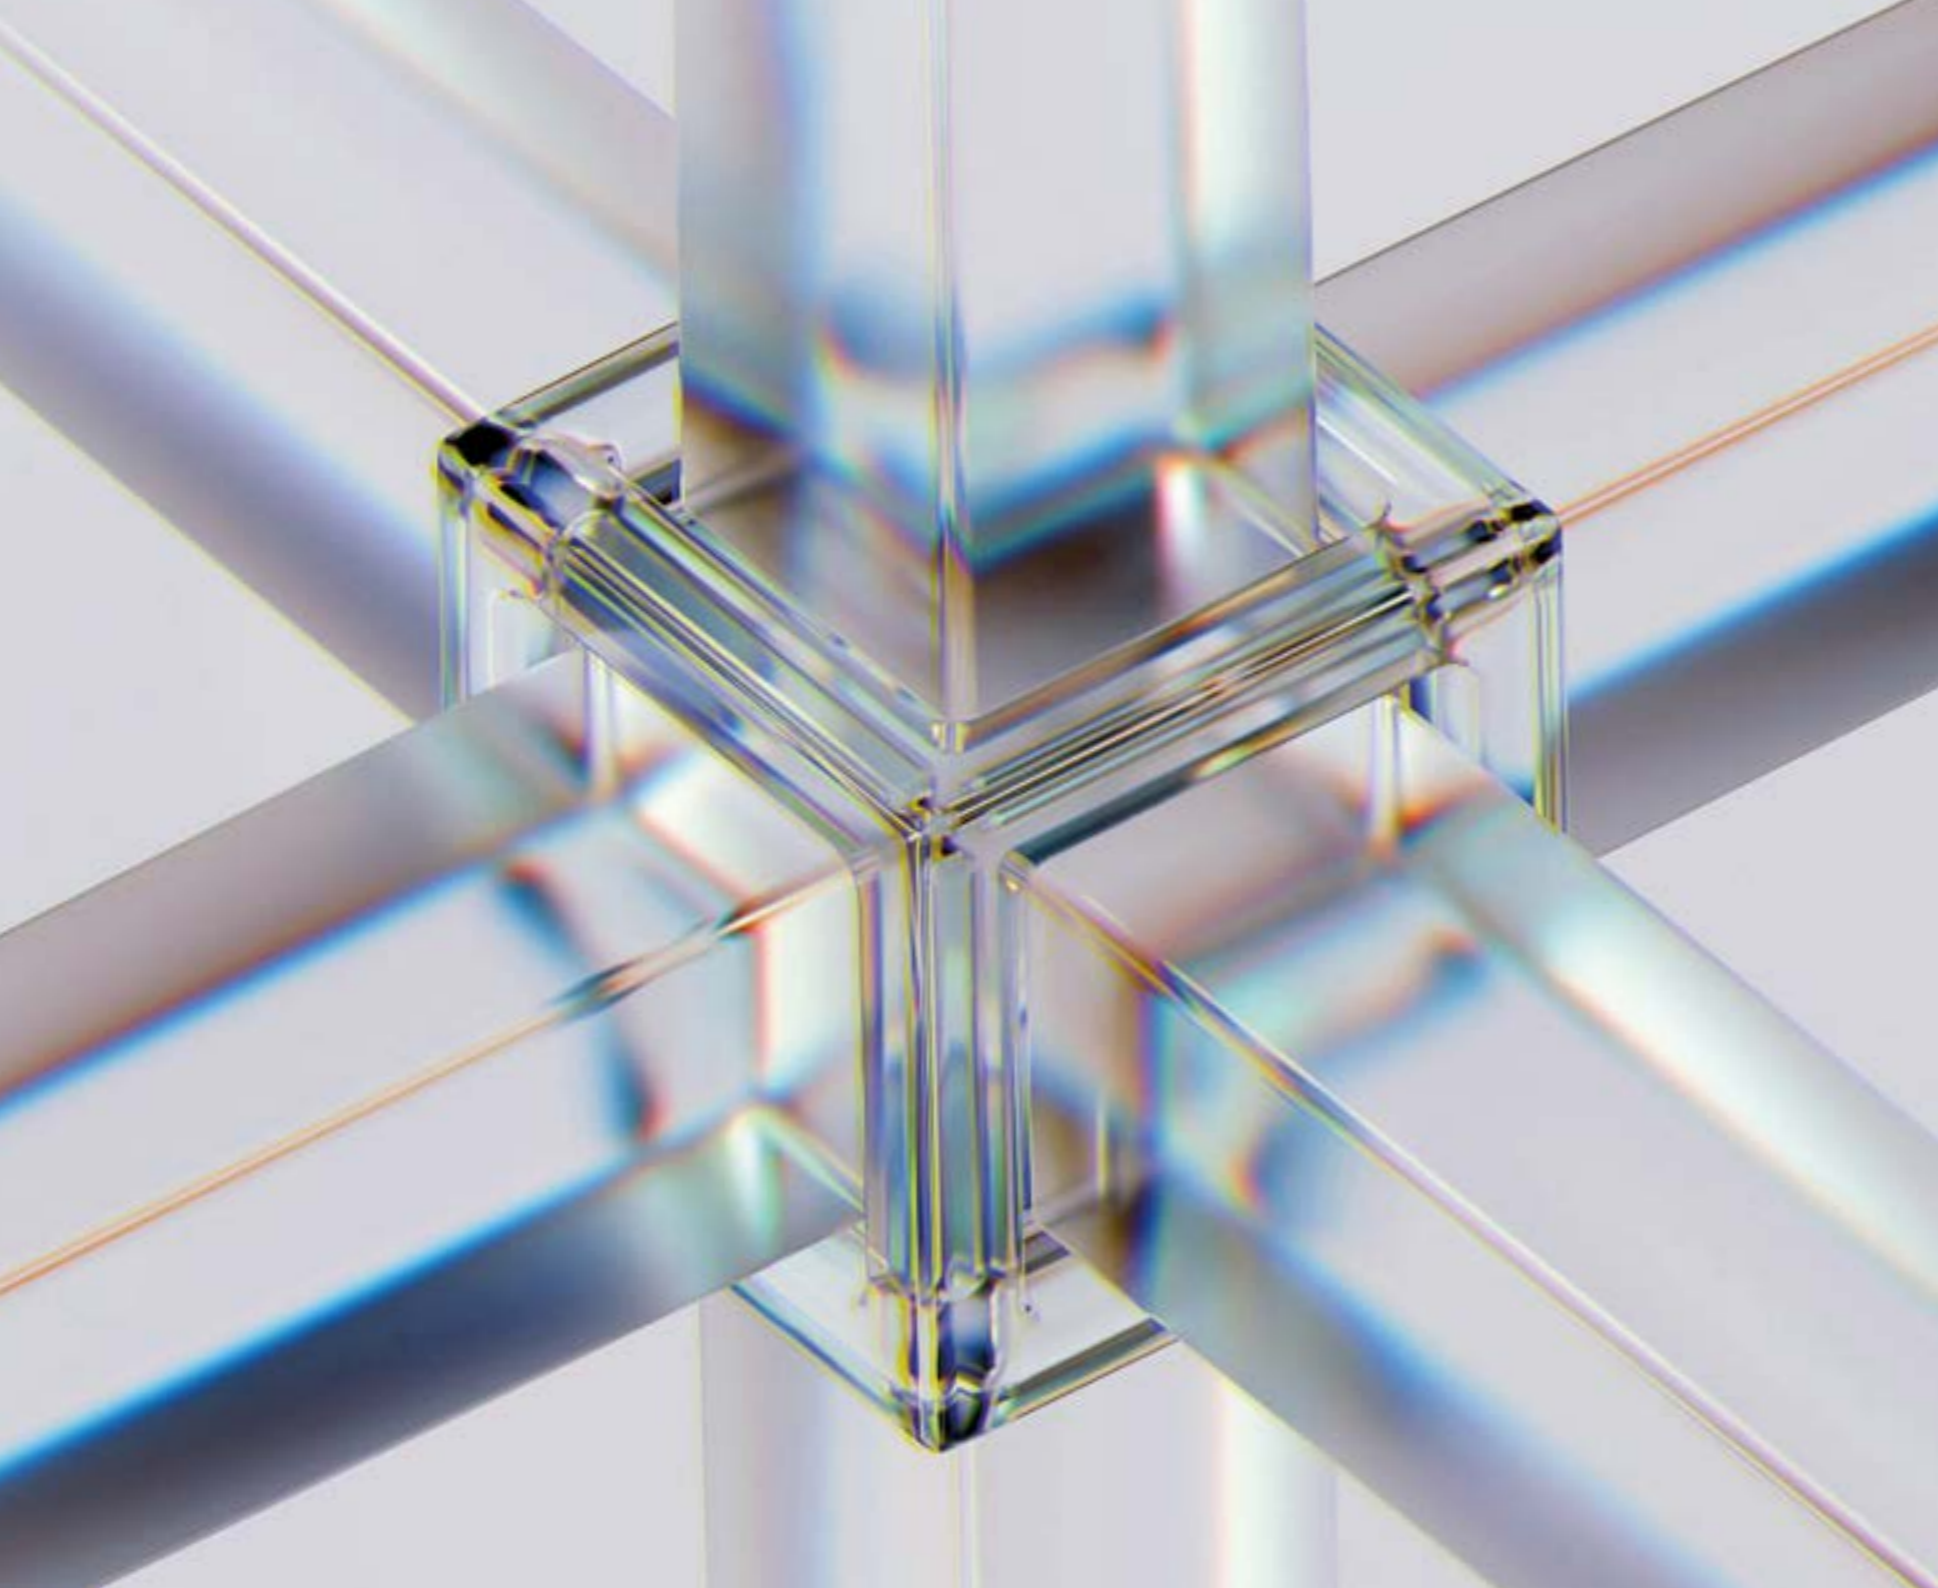

Pioneer in its markets, Private Corner is first and foremost a team with backgrounds in private equity fund structuring, administration and financial management.

We put our expertise – built up working for highly demanding institutional clients subject to strict constraints – to work for our partners and their clients.

Our aim is to enable them to leverage Private Corner's operational excellence and the in-depth knowledge of the private equity market of our founders and team.

Thanks to Private Corner, wealth and asset managers can offer their clients optimum service at every stage of their investment life cycle.

We are *#PrivateCorner*.
Advise your clients
and let us *take care of the rest*.

Our *mission*

At Private Corner, our primary objective is to **support wealth and asset managers** wishing to give their private clients access to investments in private assets. **We never take their place with regard to their clients.** We provide them with **the best tools** to give their clients access to **a balanced, differentiated range of private assets.**

We see **their success as our own**, and satisfying their clients is as much their goal as it is ours.

Innovation and collaboration are at the heart of our approach. As part of our commitment to continuous improvement, **we maintain a constant dialogue with our distributors** to ensure that we offer the best investment solutions, as well as **streamlined and secure tools.** We allocate 100% of our IT budget to develop and to ensure the best **experience possible** to our distributors. We believe in the **power of technology** to facilitate their work and boost their value proposition.

Trust is essential in our profession. That's why we draw up a **clear distribution agreement** that defines the framework of our collaboration with our distributors. This agreement is designed **to protect their clients**, for whom our distributors are the sole point of contact. Finally, we reaffirm **our commitment** by reserving **exclusive access to our funds** for our distributors.

Together, we're building the future of private investment.
