Haptic LAB Combo

HapticLab is a silicone collection that engages the senses and highlights the brand's aesthetic. With unique tactile touch, versatile designs, and on-the-go practicality, each package turns daily routines into a sensory experience. Multi-product combos offer multifunctional, customizable solutions that are both practical and stylish.

LAB Collection

Lab Collection introduces a new language of beauty packaging. At Lab Collection, we create designs that are smart, intuitive, and impactful. Our packaging helps products stand out by blending innovation with contemporary trends. Every collection focuses on what matters most: functional design, formats that suit modern routines, and materials that reflect future values. Explore our latest collections and experience a new approach to beauty.

Face LAB tint

FaceLab Tint is the FaceLab collection dedicated to all complexion types of color formulations, from creamy textures to powders including long-lasting, watery, and SPF options. Developed with a strong focus on functionality and user experience.
