Product Designer & Manufacturer

**Excellence Manufacturing**

Sericyne Silk, innovative and sustainable material

*Since 2015*

# Sericyne<sup>®</sup> Silk

An innovative and sustainable material of excellence

## Sericyne<sup>®</sup> silk is:

- Unique, with the shine of silk and a soft touch, at the crossroads of textile and paper
- **Dedicated to exceptional projects**
- Produced within our integrated and traceable supply chain
- 100% eco-responsible, naturally spun by silkworms
- **Cruelty-free** and respectful of the silkworm life cycle

French production in the Cévennes, a historic territory of sericulture.

# We support you in your projects

From design to mass production

For its clients, Sericyne offers a global approach, from R&D to project management through to series delivery.

Production is carried out in-house or with our network of partners
