

RENATURE
Attractive Materials

Renaturing
soft materials
with premium brands.

A technology platform engineering

100% natural materials.

RENATURE develops a patented technology that transforms agricultural by-products into **low-carbon, plastic-free** flexible materials with a **controlled end-of-life** for premium applications.

PHYLI®

Brings your brand's stories to life.

Inspired by the natural interaction of plant proteins and tannins, PHYLI® empowers brands to combine **desirability** and **sustainability** into industrializable applications. Our materials are **custom-designed** in collaboration with brands, manufacturers and designers.
